ABOUT ME

Recent BCA graduate with knowledge of Python, Java, HTML, CSS, JavaScript, and MySQL. Developed projects in web development, database management, and classroom monitoring systems. Also gained experience in team coordination and event management through leadership roles in college.

PROJECTS

Smart Classroom Monitoring System with Face Recognition and Engagement Analysis

Jan 2026-Apr 2026

- Developed a smart classroom system that automatically records attendance using face recognition.
- Integrated YOLO-based multi-person detection to identify students in real-time.
- Monitored student engagement during classroom sessions using facial and behavioral indicators.
- Built a Flask-based dashboard to view attendance records, engagement data, and reports.
- Stored and managed data using SQLite for easy access and reporting.
- **Technologies:** Python, Flask, OpenCV, YOLO, HTML, CSS, JavaScript, SQLite

College Website

Aug 2025 - Oct 2025

- Developed a multi-page college website containing department, faculty, and library sections.
- Created responsive layouts using HTML, CSS, and JavaScript.
- Improved navigation and accessibility for easier access to information.
- **Technologies:** Python, Flask, HTML, CSS, JavaScript

Student and Faculty Management System

Mar 2025 - Jun 2025

- Developed a web-based system for managing student and faculty records.
- Implemented separate login panels for administrators, students, and faculty.
- Integrated MySQL database for secure storage and retrieval of information.
- Built using Python Flask, HTML, CSS, and JavaScript.
